

You can do something to save children's lives!

- More than 20 million children live in poverty
- In the Philippines, 1 out of 5 of all children under 5 years old are undernourished and die due to preventable causes
- Almost 4 million children in the Philippines are not able to go to school. Children who are most vulnerable, deprived, and marginalized have no access to inclusive and quality learning
- Children suffer from the physical, psychological, and social impacts of violence, disasters, and conflict
